OBJECTIVE

Motivated IT enthusiast with a passion for problem-solving and a thirst for knowledge. Looking to begin my journey in the IT industry by securing an entry-level role where I can utilize my technical skills, adaptability, and willingness to learn to contribute effectively to the team.

EXPERIENCE

Front-end Developer

CodSoft

Oct 2023 - Nov 2023

(Virtual Internship)

- Portfolio - creating a personal portfolio using CSS and HTML is a popular beginner web development project.
- To-Do list - basic To -Do using CSS, HTML, and JavaScript.
- Calculator - basic calculator using CSS, HTML, and JavaScript.

Successfully completed Google Arcade Facilitator Program, honing skills in technology and collaboration.

Completed Google Cloud Study Jams 23-24, collaborated with GDSC-GBU effectively

Contributed to 4 open-source projects, completed Hacktoberfest 2023-24 successfully.

PROJECTS

Hangman- Developed an interactive Hangman game using React.js, showcasing proficiency in front-end development and state management.

Major Project- Developed a machine learning model for real-time extraction and sentiment analysis of YouTube comments using Python, YouTube API, and NLP libraries, achieving 21% accuracy. Provided actionable insights for content creators based on audience sentiment.

Minor Project - Created a dynamic event information website as a college project, showcasing a sleek design and user-friendly interface. Implemented features for real-time updates, seamless navigation, and interactive content, providing a centralized hub for all event-related details.
